Berlin, March 13—It is reported it is the intention to proclaim Von Hindenburg "Imperial President."

Ebert Moves To Dresden
(By Associated Press)
Paris, March 13—Bulletin—The Ebert government in Germany has established its seat at Dresden, the capital of Saxony, according to advices this afternoon.

London, March 13—A proclamation was issued in Berlin today stating the German government had ceased to exist, according to a Reuter's dispatch. Revolving troops entered Berlin this morning, the dispatch declares. No acts of violence are reported.

Revolution Seems Bloodless

(By Associated Press)

Berlin, March 13—The overthrow of the Ebert government was announced in a proclamation issued at 10 o'clock this morning after revolting troops had entered Berlin suburbs and occupied the Wilhelmstrasse. Up to that hour there were no disorders developing. Carriages, taxi cabs, and street cars were moving as though nothing had happened. There was no change in the appearance of Unter den Linden except for the presence of a considerable body of troops.

The proclamation first appeared in the hands of a mounted and helmeted soldier. He handed it to a group at Unter den Linden corner and later read it on the street corners. It declared the entire authority of the state had passed to General Provincial Director Kapp, as imperial chancellor and premier of Prussia. Over his signature, the proclamation asserted the mandate of the National assembly to create a constitution and conclude peace had expired and declares the national assembly dissolved. It adds:

"As soon as internal order is restored, we shall return to constitutional conditions and prescribe new elections."

President Ebert, meanwhile with his wife, had left the city.

The troops which made their descent upon Berlin, for the most part were quartered in the Doberitz suburb and included troops which recently returned from the Baltic provinces. Threat of their movement developed at midnight. When it became known they were advancing, officials opened negotiations with a naval brigade which formed part of the contingent. Meanwhile the cabinet sat until early this morning considering the brigade's demands, which subsequently were rejected and the troops entered Berlin. This is according to semi-official agency which also states that the dominant Social Democratic party called a general strike. This party has supported the Ebert government.

(By Associated Press)

Washington, March 13—Officials refused to comment on the Berlin situation. Some high military officers are inclined to regard the uprising as a "palace revolution," and that it would not spread to other parts of Germany. Reports from Germany, however, have indicated growing unrest because of the slowness of reconstruction and return to world peace. Demonstrations on a large scale had been expected.

Proclamation Issued

(By Associated Press)

Paris, March 13—Havas—A proclamation issued in Berlin today declares the government of the empire ceased to exist and the power of the state has passed into the hands of General Director Von Kapp, who becomes Chancellor and has appointed General Von Luetwitz commander-in-chief of military forces, according to Berlin dispatches.

The proclamation declares the General Assembly is dissolved and announces a new government is being formed. The Socialist parties have declared a general strike, the dispatch adds.

Assurance of the proclamation followed occupation of Wilhelmstrasse, where the government buildings were occupied by troops who had returned from the Baltic

BIG MOONSHINE HAUL IN IRVINE

Young Man Caught In Auto With Whisky Is Brought To Jail Here

Tom Hill, a young Irvine man, is in county jail here, having been arrested in that city by Marshal R. G. Philpott, on a charge of having moonshine whisky in his possession. Hill was caught in an automobile, with two gallons. Two other young men who were with him, made their escape, but the officer has returned to Irvine to get them. Deputy Internal Revenue Collector U. G. McFarland, who is one of the chief prohibition enforcement officers in his part of the state, came over Friday night and went to Irvine with Philpott, and some interesting developments are expected.

Mr. Philpott said that the automobile in which Hill was caught with the whisky belonged to Tom Wallace, that Wallace was not in the crowd. Hill told Jailer Burgess, the latter says, that he and the others went on horseback into the mountains and bought about five gallons of moonshine and brought it to Irvine. They left it at a house on the outskirts of town, and came in and got a car and went back for it, but when they saw an officer coming two of the men jumped out and got away but he remained in the machine and was captured.

Officers stored the "white lightning" in the vault of one of the banks at Irvine. During the night some one threw a rock through one of the large plate glass windows of the bank, and while here with the prisoner Philpott was notified that threats were being made by friends of the men concerned against the bank, so he took McFarland with him back to Irvine.

Philpott says he expects to arrest the other men concerned in the affair and bring them to jail here too. He seized the automobile, which the government officers are empowered to sell, it being a provision of the prohibition law that a vehicle used to transport liquor shall be seized and sold.

SAMUELS' WORK BEARS BIG FRUIT

As a result of the work done in Covington, by Deputy Collector Hugh Samuels, of Richmond, and other internal revenue officers, L. E. Bullock, commissioner of safety of the city of Covington, and Logan Goodson, detective on the Covington police force, and eight other Covington men were indicted by the federal grand jury sitting at Frankfort, in connection with the theft of fourteen barrels of whisky from Latonia distillery No. 2, about six weeks ago. There are two counts in the indictment against Bullock and Goodson. The first count alleges that each man conspired to commit an offense against the United States. The second count alleges that the accused gained access to a distillery warehouse in the absence of a proper officer and removed distilled spirits to a place other than a distillery warehouse and sold same.

Seven of the men indicted at Frankfort were arrested some time ago by Mr. Samuels and the other federal agents who investigated the theft. All are widely known in Covington.

and have been in barracks in the suburbs. The troops entered Berlin this morning.

The names associated with the new revolutionary movement in Germany indicate a reactionary character. It appears Germany is in the throes of the frequently predicted counter-revolutionary monarchist struggle. Von Kapp is a former president of the Fatherland Party, a notorious pan-German organization, which urged Germany to carry the war to a bitter end.

Von Luetwitz was military governor of Belgium early in the war, and later a commander on the Verdun front.

STRUCK BY AUTO AND BADLY HURT

Mrs. Bernie Tapp, wife of Charles P. Tapp, grocer at the corner of First and Irvine street, had her right limb broken in two places below the knee and when she was struck and run over by an automobile driven by Frank Simpson and Willie Prewitt, of Kirksville, late Friday. The young men, who conduct a garage at Kirksville, were arrested on an assault and battery charge, and waived examining trial in Police Court Saturday at two o'clock, being held to the next grand jury under \$200 bond, which was furnished by Messrs. Carl Prewitt and W. F. Whitaker.

The young men claim that they sounded their horn as they turned the corner at B and Irvine streets, and that Mrs. Tapp did not heed it. Mrs. Tapp was taken to her home immediately suffering greatly, and the broken member set. It is understood that fears are entertained that she may have been internally injured.

Officers took the men in charge and they spent the night in county jail but quickly gave bond Saturday morning. They say the accident was unintentional and unavoidable. Friends of Mrs. Tapp are understood to assert that the young men were driving too fast around the corner.

\$75,000 Fire In Middlesboro

Middlesboro, Ky., Mar. 13—The death of a woman and a \$75,000 fire loss resulted last night when the large Manning Theatre building was destroyed by fire.

Mrs. Mary Hurst, wife of Mat Hurst, railroad carpenter, was struck and instantly killed by an unidentified automobile while she was in the street watching the fire.

Dr. Inman's studio, the Singer Sewing Machine Company, the Home Telephone Company, and the Lovett millinery store were located in the theatre building, which was burned to the ground. R. L. Brown was owner of the building.

An adjoining hospital was damaged \$5,000. All patients were safely removed.

DOROTHY DALTON in "L'APACHE"

In "L'Apache" the Paramount-Artcraft picture produced by Thomas H. Ince, which is coming to the local theatres next Monday Dorothy Dalton appears in the type of role which first won her fame. It was only a year ago that Miss Dalton left the stage and determined to become a motion picture star. Her first part was in "The Disciple" with William S. Hart. Mr. Ince studied her work carefully and in "The Flames of the Yukon" cast her in the lead in the kind of character he felt she was peculiarly fitted to play—an impulsive music hall dancer. She made an instant hit and has appeared in a wide variety of pictures since, but "L'Apache" resembles most closely the one that established her as a star.

She is not a Western girl in this latest picture, but a French dancer in the Apache quarter. Because of her beauty and dancing skill, she is known as "the Carmen of the Apaches." Her partner is her Apache husband, whom she hates with the fury of a downtrodden woman. Then comes the opportunity to escape by masquerading as an American heiress, whom she resembles closely. It is a stirring drama of thrills, adventure, and love. Robert Elliott is Miss Dalton's leading man, and the picture was directed by Joseph De Grasse.

WILLIS HISLE, AGED CITIZEN, DIES SUDDENLY

Prominent Farmer Stricken While Feeding Cattle At His Home Saturday Morning

Death claimed one of Madison's oldest and most highly respected citizens early Saturday morning, when Mr. Willis Hisle suddenly passed away at his home on the Big Hill pike. Mr. Hisle had been in ill health several months, with a complication of troubles, which had caused his family to be deeply concerned, but he was thought to be very much improved lately. He was at the barn feeding his cows when the summons came. It was a severe shock to his wife, who was alone on the farm at the time. Many relatives and friends who were notified by telephone reached the home in a short while.

Mr. Hisle had spent his entire life in Madison county. By thrift and industry he had amassed a splendid estate. He was born May 20, 1835, and in 1869 married Miss Mattie Covington, who with three children, W. M. Hisle and Sam Hisle, prominent citizens of the Waco section, and Mrs. Fred Rogers, of Independence, Mo., survive; also one sister, Mrs. Robert Covington, of Waco, two brothers, Mr. John Hisle, of this city, and Mr. Leroy Hisle, of Nicholasville. Funeral arrangements have not yet been made. The deceased had been a member of the Methodist church for many years.

DR. R. L. CLARK LOSES HIS FATHER, TOO

Friends here sympathize with Dr. R. L. Clark who received news Friday announcing the death of his mother, Mrs. C. L. Clark, which occurred in Cincinnati Friday. She was 76 years of age, and it is thought that grief over the death of her aged companion about six weeks ago, hastened her demise. Remains were interred by his side in the Cincinnati cemetery Friday.

MADISON GIRLS WIN OVER VERSAILLES

The splendid work of Miss Alice Mellinger, of the Madison High School girls' basketball team, was principally responsible for the fine victory of the local team over the Versailles girls at the Normal gymnasium Friday evening. With the score at the end of the first half 4 to 1 against the local girls, Miss Mellinger was switched from guard to forward, and no football player tackling an opposing line, ever went through his opponents with more vim than Miss Mellinger displayed in the last half. She played all over the visiting team and made six of the 10 scores that were finally registered against the four for the visitors. Of course, she had splendid support from her team mates who were Misses Thelma Taylor, Iva Jean Todd, Sara Sheppard and Mabel Sheppard all of whom played in fine form and scored a popular victory.

SUE EXPRESS CO. FOR 18 PAIR OF SHOES

Suit was filed in the Madison Quarterly Court here Saturday morning by the local firm of Rice & Arnold against the Adams Express Company for \$94.50 damages for the loss of 18 pairs of shoes. The petition, which was filed by Attorney C. C. Wallace, alleges that the shoes were shipped by express by the Zeigler Co. of Philadelphia, and that the local firm has made repeated demands for the shoes but that the express company failed to deliver them.

WIND STORM PLAYS HAVOC IN GRANT

Sherman, Ky., March 13—Six pupils were injured, two seriously when a windstorm which swept Grant county late Friday, demolished a three room school house here.

Among the injured are: Grace Sornash, 8 years old, chest crushed by falling chimney; serious. Thomas McCormick, 8, body crushed, serious. Penelope Fitzgerald, 6, head crushed. Floyd Points, 9, leg cut.

A large building owned by Chas. Atkins was wrecked and Robert Atkins who was upstairs, was carried more than 100 feet down the side of a hill by wind, but escaped serious injury.

Three large barns at the stock farm of C. T. Morris were blown down.

Havoc wrought by the storm was extensive, property damage in the county being estimated at \$100,000.

At Augusta, Ky., the wind stripped the coping from the roof of the Planters' Tobacco Warehouse.

At Versailles Walter Redd, colored farm laborer, rescued J. D. Carpenter when a gasoline lantern exploded while he was seated in a motor truck, set fire to the gasoline tank and Carpenter was overcome with the fumes. The negro's coat was burned off.

TOBACCO EXEMPT FROM TAXATION

Where Stored, In Bill Passed By House, To Aid Western Kentucky Growers

Frankfort, Ky., March 13.—The Williamson bill to exempt unmanufactured tobacco from local taxation and imposing a State tax of 60 cents instead of 40 cents as at present, received a stormy passage in the House Friday, after Governor Morrow had thrown his personal efforts into the fight for the measure.

The governor appeared before the Rules Committee and insisted on it being called up immediately on passage of the McAllen Judiciary Bill. Mr. Morrow's action followed a conference with W. G. Davis, Elkton, district representative of the Farmers Bureau, who addressed the House.

He said Western Kentucky farmers have not been able to dispose of their tobacco, and must store it in the city warehouses, where their product is subject to county, city and school tax.

The bill exempts not only the farmer's tobacco but tobacco in re-handling plants at Owensboro, Lexington, Henderson, Bowling Green and other cities, and representatives from these cities fought the bill hard, declaring the loss in revenue would be large.

Declaring that he is convicted that neither party in Kentucky is attempting honestly to carry out its campaign pledge to abolish useless offices, reduce taxes and to expedite business, Senator Haynes Carter, of Elizabethtown, introduced in the Senate a resolution proposing that the Legislature meet during the state campaign. By this method, he asserts, the parties might show by actions and not promises the sincerity of their plans.

The resolution was prepared by Senator Carter following the action of the senate in transferring the office of the State Forester to the State department of Agriculture and passing a bill establishing the State Geological Survey, and the office of State Geologist. This new office pays a salary of \$3,000 a year, and the bill appropriates \$27,500 annually for the department. Senator Carter said in addressing the Senate that its action in passing bills abolishing the name of a department and then transferring the department bodily to some other department "is a camouflage which will not fool the voters long."

With but little opposition, the anti-trust bill, to prevent conspiracies, pools, trusts and combinations, passed the Senate 28 to 6.

The judiciary bill, advocated by the Administration, which permits candidates for Appellate Judge and Circuit Judge to be placed under the emblems of either of all parties, passed the House.

The bill of Representative McAllen to fix salaries of Deputy Clerk of Police Court at \$1,500, and the Pryse bill, to increase from \$600 to \$1,800 fees paid to the State Treasurer out of the insurance premium tax, were passed unanimously.

A board of moving picture censors of three members, to be appointed by the Governor, is to be established under the bill of Representative Pryse, which was passed, 60 to 21. Members are to be appointed from lists submitted by the Federation of Women's clubs, moving picture exhibitors and the State Superintendent of Public Instruction. They are to receive \$1,000 annually for their services. The salary of the secretary to the board is not to exceed \$5,000 annually and expenses of the board are limited to \$8,000 annually.

A fee of \$1 for each reel censored is to be paid to the board by moving picture exhibitors.

Resolutions commending Suzanna Hart Chapter, D. A. R., of Frankfort, for bringing to the state cemetery the body of Lieut. Preston O'Bannon, the Kentuckian who was first to plant the American flag on foreign soil, giving to enrolling clerks \$200 for extra work, also providing for \$500 to pay for the Blue Book, a compendium issued biennially by the State Librarian were adopted.

Governor Morrow signed the Vance bill levying a tax of 50 cents per gallon on whisky in bonded warehouses in Kentucky. The state expects to realize \$15,000,000 as a result of this bill.

BOGGS EXPLAINS FEDERAL ROAD FUNDS

State Road Commissioner Says Report State May Lose Share Is Misleading

Kentucky is not in danger of losing its Federal-aid money, Joe S. Boggs, Commissioner of Public Roads, said at Frankfort and explained that the Washington story to that effect was correct as far as records at Washington show, but did not take into account plans in the hands of the district engineer at Chicago. Commissioner Boggs said:

"I note in The Courier-Journal a news item from Washington stating that Kentucky is in grave danger of losing more than \$1,000,000 in Federal aid money for road purposes of plans, surveys, project statements and project agreements are not approved by the Federal engineers by July 1 of this year.

"As this article is misleading in some respects in that it does not correspond with the facts, that to the people of Kentucky I wish to give a condensed statement showing the status of Federal-aid projects at this date.

"Our records show that it is necessary that Kentucky has tied up by June 30, 1920, of Federal-aid money the sum of \$1,592,266, and that we now have under contract, in the counties of Boyd, Fayette, Rowan, Carter, Mercer, Rockcastle, Hart, Todd, Larcum, Nelson, Warren, Jefferson, Mercer and Breathitt. Federal-aid projects of which the Government's one-half amounts to \$825,423.34.

That there are now in the office of the district engineer at Chicago plans for approval in the counties of Clark, Whitley, Boone, Kenton and Rowan, of which the estimated cost of the Government's 50 per cent is \$231,872.35.

That there are now practically completed, or will be completed in the next thirty days, plans for proposed Federal aid projects in Hopkins, Knox, Bell, Jessamine, Boyd, Henderson and Trigg counties, of which the estimated cost to \$723,464.45, or an overplus more than is necessary to be tied up of \$218,499.14.

So that it is very easy to see from these figures that Kentucky is now in no danger of losing Federal aid money.

There is, however, available by June 30, 1920, of Federal aid moneys the sum of \$1,418,310, which includes the above amount of \$1,562,266, leaving \$1,856,044, which will be available on that date, but which does not have to be tied up until June 30, 1921."

This office now has in the field twenty engineering corps making surveys. Our drafting rooms are making use of every available man.

It is my belief that by September 1 of this year we will have taken advantage of all Federal aid moneys that have been apportioned to this State up until June 30, 1921.

From these statements you can clearly see that the State Road Department as a matter of fact, is 'riding easy' on our Federal aid money and that the information from Washington was taken solely from the records there, and does not include plans submitted to the district engineer at Chicago.

Nor does it take into consideration the enormous volume of work that is now nearing completion in the next thirty days in this office.

Nor does it take into consideration the work being done by the engineering corps that we have in the field.

Practically the entire efforts of this office for six months have been directed toward taking full advantage of all money apportioned to Kentucky by the Federal Government, and to my mind those efforts are now reaching a satisfactory culmination.

The March term of the Garrard County Circuit Court convened last Monday morning with Judge Charles A. Hardin, presiding. Commonwealth Attorney Emmett Puryear and County Attorney G. C. Walker are each looking after the commonwealth's interest. The first case on the docket was the Commonwealth against Bessie Padgett, charged with the murder of her husband, James Padgett, last November, by striking him in the head with a stick. The defendant claimed self-defense. The jury took the case at four o'clock Wednesday afternoon and at five returned a verdict for manslaughter and fixed the punishment at four years in the penitentiary. The docket is the lightest here in years, with about 35 appearances including both common law and equity.

Lets Get Busy

Two or three thousand dollars are still needed to complete the fund necessary to secure the White Way for Richmond before the paved streets are put down. Are our people going to let such a sum as that stand in the way of a permanent improvement to the city which will always be a source of pride and pleasure to every citizen here? This work must be finished up soon. Most of the business men along the streets that will be lighted have given liberally. Some have given out a cent. Every one should have a part in the work. This means a great deal to the beauty and appearance of Richmond. Lets get busy and put it over.

Senator Stanley came all the way from Washington to face the Legislature's probe committee. Suffering Described As Torture
Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theodor's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theodor's Black-Draught."

SOCIAL AND PERSONAL

No Matter Who
In every individual there's a little bit of good.
Though all his troubles of daily life are never understood;
He passes from the cradle and from his mother's care.
To face a world of hardships of which he's not aware.
The time is here when brothers must be made to understand,
That the clasp of hand through friend-

liness is greatly in demand,
By our daily actions and the lesson we are truly taught,
Makes each man a little better and also pure of thought.
So let us pass a friendly smile to each and every man—
Don't wait for him to buy it all, but give it if you can.
So in every individual it is easily understood,
No matter who or where they are there's a little bit of good.

Birthday party

The following from the Winchester Sun will be of interest to many Richmond relatives where Raymond Russell Grant frequently visits his grandmother, Mr. Giles Harris and his aunt, Mrs. Stanton H. Thorpe:

A number of the little friends of Raymond Russell Grant, son of Dr. and Mrs. Carl Grant, joined him at his home on French avenue Wednesday afternoon in the celebration of his fifth birthday. Children's games were played and refreshments of cake, molded jellies and tea cakes were served in the dining room. The little folks enjoyed especially the very beautiful birthday cake with five candles given by Mrs. J. S. Dills as a surprise to the little host. The Easter note was given the party by favors of roosters with whistles. The little host received quite a number of presents which were Easter reminders.

A LETTER FOR WOMEN

From a Woman Whose Serious Illness Was Overcome by Lydia E. Pinkham's Vegetable Compound.

Garnett, Kas.—"I first took Lydia E. Pinkham's Vegetable Compound for a complete nervous breakdown following the birth of my oldest child. I got up too soon which caused serious female trouble. I was so weak that I was not able to be on my feet but very little and could not do my housework at all. I had a bad pain in my left side and it would pain terribly if I stepped off a curb-stone. One day one of your booklets was thrown in the yard and I read every word in it. There were so many who had been helped by your medicine that I wanted to try it and my husband went to town and got me a bottle. It seemed as though I felt relief after the second dose, so I kept on until I had taken five bottles and by that time I was as well as I could wish. About a year later I gave birth to a ten pound boy, and have had two more children since and my health has been fine. If I ever have trouble of any kind I am going to take your medicine for I give it all the praise for my good health. I always recommend your medicine whenever I can."—Mrs. E. E. SHAY, Garnett, Kansas.

improved.

Mrs. Lillian Logan Kean, who is head of the department of Voice at Hamilton College, Lexington, has returned to her duties after a delightful visit to her sister, Mrs. T. S. Burnam in Burnamwood.

Friends will be delighted to know that Mr. and Mrs. Miller Lackey, who have been making their home in Aberdeen, Mississippi, have returned to old Madison to stay, as have quite a number who went to Mississippi during the past two years.

BIG HILL

George Rogers, of this vicinity, died after a long illness at his home near Bobtown, February 28.

James Hamilton, Morgan Neely and Riley Amyx, of Jackson county, stayed over night with J. I. Hignite, on their way to court at Richmond.

Born to Mr. and Mrs. J. W. Hudson, a fine boy of which they are proud.

There was a singing at the Rev. Ambrose's Saturday night and a large crowd attended. A nice time was reported.

Elijah Gay, of Boone county, moved near here, and is liking this country fine.

The influenza is raging rapidly around here, but hasn't caused many deaths.

Sunday school at Bobtown is progressing nicely.

Mr. Bowing of this place, is trying to organize a Junior Order.

SILVER CREEK

Hiram Powell's and Richard Burnell's families have flu. Dr. Alson Baker is the attending physician.

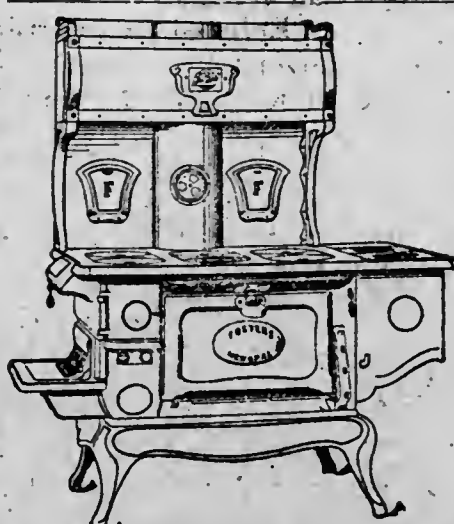

Mrs. Susie Ballard still continues very poorly.

Aunt Sallie Johnson is very feeble at present. She is nearly 90 years old.

On Feb 8th Mr. and Mrs. Caleb Todd (known as Uncle Tobe) celebrated their golden wedding anniversary.

COSTLY FURS IN "THE CUP OF FURY"

Coming Here Friday
Ten thousand dollars' worth of furs play a modest bit in the Goldwyn Picture, "The Cup of Fury", by Rupert Hughes, an Eminent Authors' Production. One of the costly articles is a mink coat valued at five thousand dollars which the camera catches for about a minute as Helene Chadwick dons it to leave the sumptuous drawing room of a city mansion. The other half of this outlay of money is represented in a beautiful broad and long sable scarf, lined in ermine and finished with trimming of fur tails. As these furred luxuries had to be returned to their rightful owners when they had served their purpose in "The Cup of Fury", Director Hunter took great care that no grease, paint or powder got on the costly collars.

INSPECTING DIXIE HIGHWAY IN GEORGIA

Counties along the Dixie Highway in Georgia are getting forceful object lessons of the high cost of temporary roads along the main highways and are determined to see that the State Bond issue of at least \$40,000,000, is passed by the next Legislature, which meets in July. This, in their opinion, will insure a road during February as well as in June. This was the observation of Secretary V. D. L. Robinson of the Dixie Highway Association at the conclusion of his first leg of his inspection trip over the Dixie Highway through the State of Georgia which ended in Atlanta. Mr. Robinson, in his official Briscoe touring car, is continuing his tour along the western division of the Highway through Fort Valley, Griffith, Barnesville, Forsyth, Macon, Montezuma, Oglethorpe, Americus, Leesburg, Albany, Flint, Camilla, Pelham, Meigs, Thomasville, Tallahassee, Fla., Perry, Gainesville, Ocala, Orlando, Arcadia, Ft. Meyers, at the conclusion of which he will cross over the eastern coast, and starting at Miami, make the trip along the eastern and central divisions of the Highway. Mr. Robinson will be joined in Florida by Major Charles M. Hayes, President of the Chicago Motor Club, who will accompany him on part of the inspection trip.

Between Atlanta and Macon, Secretary Robinson is being accompanied by Frank T. Reynolds of Atlanta, who is making a tour of the State of Georgia County Commissioner's Association speaking in the interest of the \$40,000,000 bond issue for Georgia, and W. P. Royster, Manager of the Griffin and Spalding County Board of Trade, Griffin, Ga., who is largely responsible for his county of Spalding to be the first county in Georgia to build the entire mileage of the Dixie Highway, or any other main highway, of concrete. This work is more than half completed.

The roads along the Dixie Highway between Chattanooga and Atlanta, as the result of the heavy rains of January and February and due to the heavy traffic, to which the temporary type of surfacing had been subjected, were extremely difficult in places. However, in practically every county a disposition was shown to vote large bond issues and build the type of roads which should be constructed with the expectation of being reimbursed by the state when the bond issue is passed. Counties prefer to do this as they need the roads now and realize that it is manifestly impossible for the state to build all of the roads at one time.

A most active interest is being taken in the improvements on the Dixie Highway in Georgia by the Dixie Highway Association as dedication exercise, which will formally open the Mountain sections of the Dixie Highway through Tennessee, will be held in Chattanooga during the early part of September. The work on all uncompleted sections between Nashville and Chattanooga and between Cincinnati and Knoxville are all under way or will be by early spring. The construction between Nashville and Chattanooga is all under way. The Governors of the various states will be present just as they were at the first conference of Governors when the movement was first launched in 1915.

With the travel turned into Georgia it will be necessary to offer a road which can be traveled most especially during the winter months into Florida. According to the preparations which the counties are making between Chattanooga and Atlanta, and the plans which the State Highway Commission of Georgia have made with the passage of the Bond issue, Georgia will make the road travelable for the winter of 1920-21 and a paved and completed thoroughfare before many years.

FOR SALE

On account of moving from Richmond I will offer our home on Main street for sale; an 8 room house with bath, electric lights, water and gas, and a small room on porch; all in good repair with lot 160 feet by 342 deep, with garage, stable, corn crib, servant house, coal house, smoke house and hen house with good concrete cellar. Young fruit trees and good size building lot on each side of house can be sold off if desired. Everlasting stone wall in front; front drive.

It is one of the best homes in the town.

Can grow from \$600 to \$1,000 tobacco each year on place. It will pay any one who is thinking of buying a home to come look at this place before buying. Can give possession May 1st, and possibly earlier.

Also a good five-room house on Big Hill avenue with halls and porches and good stable and shed for an auto; smoke house and coal house. This place joins Judge Rice's property and will make a good home for some one; or a good investment. It has gas in the house.

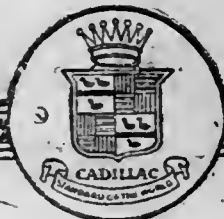

Joining this property, have a small house with three rooms and pantry, a good home or a good investment. Property that's always rented.

Will sell either or all of above property privately. Not selling for a speculation but leaving the city.

WONDERFUL AUTO FIGURES FOR 1919

Unofficial figures compiled from various sources tell a wonderful and amazing story of the automobile industry in 1919.

Ninety manufacturers of passenger automobiles and 170 builders of motor trucks in 32 states, employing 580,000, produced approximately 1,586,787 passenger cars and 305,142 motor trucks, valued at \$1,807,593,829 in the last 12 months.

A small group of automobile tire manufacturers produced more than half of the 30,000,000 tires made in 1919; with the other half manufactured by 213 small companies. Of the entire total the Goodyear Tire and Rubber Company made nearly 7,000,000 tires or 20 per cent. In 1920 it is estimated that 40,000,000 tires will be produced, of which this company will produce about 25 per cent.

Automobile exports last year were of startling totals. The value of motor vehicles and parts sent abroad to 81 countries was \$146,334,516, of which 62,624 were passenger cars valued at \$68,945,740, while 4,748 were commercial vehicles worth \$35,372,419. The value of parts exported was \$42,016,284.

It is estimated that there were in 1919, 62,036 automobile dealers, garages and repair shops in the United States. Of the total 32,317 were passenger car dealers, 18,934 were truck dealers, 36,427 were garages and 43,381 were repair shops.

Farmers were the largest users of motor trucks, owning 10 per cent of the car output was sold to and 15 per cent more than retailers. It is estimated that 40 per cent of the car output was sold to farmers last year.

The 7,100,000 motor vehicles in

use in the United States, of which 700,000 are motor trucks, brought \$65,000,000 revenue to states from license fees.

Mathematicians figure that there are 15.96 persons in the country to every automobile and two cars in the country for every square mile.

Lovers of horse flesh will view with sadness the fact that 3,000,000 horses were displaced by trucks last year. At the same time it is estimated that 15,000,000 acres of land were released for food production by the use of motor trucks.

Iowa and Nebraska have the largest number of automobiles per capita, with one car for every six and a half persons. Tennessee lead the country in increased car registrations, with 29 per cent gain.

GARRARD COUNTY

Mrs. Clay very delightfully entertained at her home on the Lexington pike in honor of her little daughter Nancy's birthday. Nancy was ten years old Sunday, March 7th. There were ten guests of same age, to enjoy the nice dinner.

Miss Henrietta Riddell, of Rice Station, is a visitor of Miss Bessie Barr. Her cousin Miss Jennie Barr, spent the week-end with her sister, Mrs. T. D. O'Hearn, near Marksbury.

Mr. and Mrs. Ernest Centers and Mr. and Mrs. Frank Royston of Paint Lick, were recent visitors of their father, Mr. J. A. Scott, on the Lexington road.

Mr. J. D. Baker, of Madison, visited his cousin, Mr. John C. Broadus, the first of the week. Mr. and Mrs. Wm. Hamilton, Mr. Ira Hamilton, Misses Dallis Hamilton and Bessie Barr were in Lexington shopping the first of the week.

Mr. Jesse Prather, of Nina, and Miss Margaret Williams, of Berea, were married last week. The happy couple will reside at Nina. Miss Alice King has returned to her home in Rockcastle county, after a visit with Garrard relatives and friends.

Mr. Irvine Watkins spent Saturday night and Sunday with his grandmother, Mrs. George Alldridge.

All these attest the immediate and overwhelming popularity of the new Grant Six. And its splendid performance is bound to increase this popularity, for everybody writes that the Grant Six is a wonderful automobile—a truly fine car.

It is pleasing to record the experience of the Halifax, N. S., distributor who drove his demonstrator home from the factory. He gave it a gruelling test. "We covered 1409 miles—200 miles of it the worst roads in America—and that's going some," he writes, "and she went through without a squeak or a rattle. Never sat in an easier riding car in my life."

That's typical of the experience of all. Everybody is praising the new Grant—praising its looks and its performance, its speed and its easy riding qualities.

This is the logical result of a design fundamentally correct—a motor that's unusually fine—a chassis that's built for endurance and a body that's built for comfort.

By all means see the new Grant Six at your earliest opportunity.

Planning Service Station

R. P. Ray and A. W. Wagner are in town seeking to interest local business men in the establishment of an oil, gas and service station here. They represent the Central Service Station of Rock Island, Ill. It is understood they are seeking a site for centrally located station, which will be operated as one of a chain of such stations over Central Kentucky, if the proper local financial support can be enlisted.

TROUBLES of the BANKER

Ask any Banker whence come the largest number of his troubles and he will answer: "The Collection Department."

Many people do not realize that the Bank cannot hold drafts and other collections for the convenience of the payee. The truth is the Bank is legally bound by the instructions which accompany collections and may, therefore, exercise neither discretion or favor. The Banker is FORCED to be prompt—may he not expect you to exert every effort to be prompt too?

Would You Lose If Your Property Burned Today?

The destruction of that \$5,000 home you built a few years ago would lose to you the original cost, plus another \$5,000. For it costs \$10,000 now to build the \$5,000 home of 1914.

Likewise the loss of today of the business property that cost \$50,000 before Germany went mad, would be \$100,000—probably \$100,000 would not replace it.

THE PRICE GETS THE

Poultry, Eggs, Hides

We buy and ship more poultry, eggs, and hides than all other dealers in Madison county combined. We buy practically all the produce sold in this county and the fact that we pay the best prices for it easily explains why we buy so much. The fact that we have the best outlet explains why we can pay more than other dealers. Others make big claims about their paying prices but fall down when called to pay them. Call phones 132 or 363 for highest prices on poultry, eggs and hides.
